

2024

Continuing Education

Make plans now to attend our 2024 NEC Code seminar. The presentation is computerized with colorful LCD projection. We are an approved Continuing Education provider for the State of Delaware, Maryland, Pennsylvania, and Virginia. Please verify acceptance with any county, borough, or state that you may deal with specifically regarding what year of the NEC is accepted for your continuing education needs. Please call or view our website for more information and CEU information. Certificates will be issued at the completion of the seminar.

Comfortable seating/relaxed atmosphere
Enroll now – seats are limited.

Course presentations will be given by either Ray Pietschmann or Frank Gaworski. All instructors are nationally certified electrical inspectors as well as master electricians.

American & Penn State Inspection Agencies are recognized as outstanding inspection agencies with highly informative continuing education seminars serving DE, MD, PA, and VA.

American Inspection Agency, Inc.

Knowledge is the key to success. Continuing education is the backbone of the ever-changing electrical industry. Don't look at continuing education as an inconvenience. Take this opportunity to expand your knowledge and learn the reasons behind these changes. One of the main differences between an average electrician and an outstanding electrician is knowledge.

American Inspection Agency, Inc. and Penn State Inspection Agency provide electrical inspections and continuing education for safe guarding of persons and property.

Would you like to have an in-house continuing education course at your place of business? We offer in-house seminars designed to suit your electrical contracting needs. If you are interested, please contact our office, and speak to one of our instructors or complete your information below and mail it back to us.
